Hon. James P. Davis, Director,
Division of Territories & Island Possessions,
Washington 25, D. C.

Dear Sir:

Late this after-noon I found a copy of a letter dated June 1, 1950,
on my desk. It was apparently intended and timed for a happy vacation
thought in the event that I might see it before I left to-morrow. Being
as how to-day was Saturday I could have left to-day or would not necessari-
ly have had to go by there to-day. In fact, there was plenty time before
to-day for it to have been placed on my desk. When I left there Yester-
day after-noon I really did not intend to return until I got back from my
vacation. Probably I was not supposed to see it until I returned, or it
could have been removed, and still be said that it had been there. Be that
as it may, at any rate, I saw it to-day.

As far as I am concerned, it is composed of the usual bunk to the
greatest extent. I long ago gave up trying to debunk most of the stuff
you have been written. It became too great an effort. There might have been
much which I did not even see. However, for about the past year and a half
I have seen much which I would liked to have commented about by way of keep-
ing the record strait, but refrained from doing so because I felt that it
might appear childish. I and others have been frequently misqouted. Re-
ferences to me have been designed to discredit me, with the hope of my re-
moval. The last letter particularily maliciously and visciously contains
mis-statements, half-truths and un-truths in connection with my name. How-
ever, even if it were true, from where I am looking it would still be right.
Things can become discouraging and even disgusting in time.

I believe that a certain party really is unduly upset. I think the
reasons for it are well founded and have to do mainly with profits and
future.

At any rate, the rhubarb crop was good and "Industrial Occupational
Therapy" is paying off well.

With best wishes and regards, I am

Sincerely yours,

G. F. Keller, M. D.
